The Problem

Gordon College often relies on different types of application in order to share updates and news about Organizations and Councils that often leads this announcements being overlooked because of because of the chosen algorithms of every users.

Organization and Councils always experience a hard time to manage their proposals and letters because of not having a proper platform to set their appointments.

The Solution

GcPulse, a platform where every students can use to see news and updates about the different Organization and Council that Gordon College has. Helping Student Leaders to have a platform that reaches their satisfaction of not having the headache in passing their proposals.
